Overview: Penthouse located in the heart of the popular area of Las Lagunas, Mijas Costa, offering stunning panoramic vistas from the Mijas mountains to the mediterranean sea from every aspect. Situated within walking distance to supermarkets, department stores, restaurants and schools this is an ideal family home. Although the property does require some cosmetic work, the bathrooms and kitchen have recently been renovated it is a great purchase. From the master bedroom there is direct access to one of the private, sunny terraces where you can enjoy the Spanish sunshine all day as well as the tremendous views across Fuengirola. The open plan lounge, dining and kitchen area offers access to another terrace with stunning views. The property has pre-installed gas and the added benefit of a solar powered boiler that provides all of the hot water for the property therefore saving on your utility bills as well. Located on a well maintained community with shared access to two pools and tennis courts. Although in need of a little TLC this is a great investment property with a lot of potential.
