Overview: This lovely welcoming home feels like a hug as soon as you walk through the door. As you walk into the lounge, the spectacular view is what catches your eye and draws you towards the windows. The lounge diner is nice and bright with an open plan kitchen and access on to the terrace with its impressive views. Upstairs are 2 double bedrooms which share an enclosed terrace with even better views. The pueblo style community has a huge communal swimming pool plus this house has the added bonus of an underground parking space and being on a bus route if you don't want to drive. A very cute home so come and take a look
